### Exo 1000

Omni-ID Exo 1000 is a long read range passive UHF RFID tag capable of reading on, off, and near metal surfaces. Designed in a surprisingly small form factor, the Omni-ID Exo 1000 features a slightly less rugged design than the Exo 800, but with the benefit of a long read range of 10 meters and a lower cost. New to the Exo 1000 is a customization option for a transparent tag that provides full protection for printing within the tag case.
